Objective A position that will allow me to utilize my skills in the areas of web design & development.

Qualifications In addition to my formal education in computer science and media study, I have significant experience as a multimedia designer and web developer. My qualifications include:

Strong Client Relationships

Along with full time employment, I have worked as a freelancer for The Boston Landmarks Orchestra, Startrak Entertainment & First Night Boston. My clients have all been extremely satisfied with my productivity and ability to create quality media products on schedule.

Technical Skills

My computer support positions have allowed me to gain valuable experience with both hardware and software issues. These skills include bandwidth optimization and audio/video compression techniques. I also have experience as a Linux webmaster and run a VPS (Virtual Private Server) with 7 hosting clients.

Web Development

Along with web and graphic design, I also have experience in web development with PHP & Coldfusion. Recently I have created dynamic content management strategies for landmarksorchestra.org, evansblue.com, briansacawa.com, thepromkings.com, chrisliggio.com & wearebobbyjohnson.com.

Experience

2006-Current **SUNY RF Professional Development Program** **Programmer / Analyst**
Involved with wide variety of projects including print design, web development and multimedia production. Required knowledge of web standards (XHTML / CSS), site accessibility / usability and Coldfusion programming along with graphics optimization and design.

2003-Current [FREELANCE] **Fishbucket Industries** **Web Developer / Webmaster**
Worked as primary developer for client content management systems and Flash remoting. Currently hosting & supporting a number of clients on company Linux VPS. Sites produced include: wearebobbyjohnson.com, chrisliggio.com, threekingsdbc.com, bbcicecream.com & briansacawa.com.

2002-Current [FREELANCE] **Boston Landmarks Orchestra** **Designer / Webmaster**
Over several years responsibilities included producing video demo for potential sponsors, updating website and other general webmaster duties. In 2005 completely redesigned website featuring dynamic content and CMS backend for client. Also provided e-commerce and e-mail support.

2001-Current [FREELANCE] **Ashmont Records / Media** **Art / Technical Director**
As Art Director, utilized a diverse background of graphic & web design to serve several clients of Ashmont Media / Records including The Boston Conservatory, First Night Boston, The Pernice Brothers, Tarbox Ramblers & The Spectrum Singers. Required strong design, organizational & communication skills.
As Technical Director, responsible for all aspects of company's online presence including e-mail, web hosting and e-commerce.

Directed & edited documentary CD/DVD release "Nobody's Watching" for critically acclaimed indie-pop band The Pernice Brothers. Required strong knowledge of video / sound / DVD production.

Education 1999 State University of New York at Buffalo, BA Media Study w/concentration in digital arts. Senior award recipient for excellence in digital arts
